

International Programs Office

2018- 2019 International Exchange Program

Queen's University is one of the few universities in Canada with an integrated Faculty of Arts and Science. This integrated structure allows students to choose from a large selection of academic courses available at Queen's in the creative arts, humanities, social sciences, languages, and life and physical sciences. The focus in the Faculty of Arts and Science is on developing the whole person: preparing citizens for an increasingly global society. Rather than passively absorbing knowledge, students learn how to investigate and think for themselves, putting their newly acquired knowledge to work.

The International Programs Office (IPO) provides academic support for internationalization in the Faculty of Arts and Science by delivering information and counsel to undergraduate Arts and Science students about international opportunities. The IPO also works cooperatively with its exchange partners all over the world and facilitates the integration of incoming students from partner universities into courses in the Faculty of Arts and Science.

ORIENTATION SESSIONS FOR EXCHANGE STUDENTS

The IPO offers an academic orientation session at the start of each term for incoming Arts and Science exchange students. The session provides information about academic programs in the Faculty of Arts and Science, course registration, the academic culture at Queen's, contacting professors, and the role of teaching assistants.

The Queen's University International Centre (QUIC) runs an orientation session that covers students' rights and responsibilities, opportunities to make the most of their time at Queen's, the numerous student services available to make their sojourn successful, as well as travelling in Canada and the United States. Information about the QUIC orientation program is available at <http://quic.queensu.ca/international-students-and-staff/welcome-and-orientation/>.

The Arts and Science Undergraduate Society (ASUS), the student government representing Arts and Science students at Queen's, runs the Exchange Buddies Program, which groups incoming exchange students with upper-year Arts and Science students. Incoming exchange students will receive an invitation to join the ASUS Exchange Buddies program once they have confirmed their acceptance to attend Queen's.

ACADEMIC ADVISING

Arts and Science exchange students are encouraged to meet with an adviser at the IPO to discuss their course selections. While every effort is made to place students in the courses requested, it is not always possible to fulfill all requests. To maximize entry to courses, partners should continue to select students who may have greater flexibility in their academic program while on the exchange program. Students are encouraged to explore all options in the creative arts, humanities, life and physical sciences, languages, and the social sciences when selecting courses.

HOUSING

On campus (residence)

Many exchange students mention that they enjoy the convenience of staying in residence. To find more information about Queen's residences, please visit <http://residences.housing.queensu.ca/>. Please note, all residence allocations are made through a lottery system and housing in residence cannot be guaranteed.

Residence Application & Deposit Deadlines

Full Year/Fall Term: Applications open March 1st, Deadline is 1 July, 2018.

Winter Term: Applications open Oct 1st. Note: Winter rooms are allocated on a first come, first served basis.

Off campus

The majority of upper-year Queen's students live off-campus, and many exchange students also choose this housing option. Sometimes exchange students are able to find accommodation in a house with other Queen's students who need an additional housemate. Finding appropriate living arrangements in Kingston can be a challenge – especially in the Fall term. It is recommended that exchange students who choose to live off-campus should come to Kingston at least one week in advance to find adequate accommodation.

One of the best off-campus housing option for exchange students is the Kingston Student Housing Co-operative (aka Science '44 Co-op): <http://www.studenthousingkingston.ca/>.
