Description: This Women’s Only getaway delivers an unforgettable experience of Kimberley Station life while you enjoy a sensory awakening amidst the natural beauty of the Kimberley.

It’s not a workshop! Though there is a leisure professional on hand for those who wish to explore that conversation.

It’s not a tour - though you will get to see some very special places - some that not even the public can access! You’ll have your own comfy Bush Hut to retire to each evening and wake each day to the breathtaking view of the Cockburn Ranges.

Be as active or relaxed as you wish by joining the day’s activities or by simply relaxing in a hammock with a book! Come with friends or on your own.
**Location:** Meet in Kununurra! We are based at Digger’s Rest Station outside Wyndham, W.A. We make short trips each day into this spiritual and mysterious landscape in comfort and safety, while you join in on one or all of the many activities in the non-judging, non-competitive, company of likeminded women.

**What’s Included?**

All food, accommodation, transfers and activities around the station are included. Horse riding is available for experienced riders and is the only activity not included in the price.

**Flights to Kununurra are not included**
