Welcome to the Curtin 2012 Careers Fair Guide!

2012 sees the Curtin Careers Fair celebrating its 7th year as the premium career fair in Western Australia for university students. Each year we listen and respond to feedback from both our students and employers to ensure the Curtin Careers Fair continues to provide the best service possible for all who attend. We think you will see the immediate benefits in these initiatives:

- We continue to hold the Careers Fair at Curtin Stadium.
- Employers recruiting international students have been highlighted.
- The diversity of employers has continued to expand and this year we particularly welcome employers recruiting Health Science and Humanities students.
- Employers offering Indigenous Employment Programs have been identified within this book. Throughout the year we will continue to feature employers recruiting our Indigenous graduates.
- To ensure opportunities for you to meet employers from diverse sectors, 2012 will see the Experience Works Career Fair (focusing on employers from the Not-for-Profit and Volunteering sectors) align with the Curtin Vacation Career Fair in semester 2.

Remember this is just the first of many opportunities to meet employers in 2012. This guide will help you to find out which employers will be available, where and when. Please visit Careers Centre website for more information.

The team at the Curtin Careers Centre trust you will access these possibilities to Explore opportunities, Connect with employers and Grow into the professional you aim to be.
Tips to make the most out of the Curtin Careers Fair

1. Review the list of companies attending the Careers Fair to identify employers you would like to meet with.

2. Practice what you might say to potential employers, you should include:
   - Your name.
   - Your degree.
   - When you are graduating.
   - Types of roles you are seeking.
   - Any work experience you have.

3. Talk to the employers, don’t just collect the freebies!

4. Develop some questions for the employers and write them on the employer profile page (for examples see the next Page).

5. Approach the company representatives confidently and with a firm handshake.

6. Make a note of all the important information, like closing dates, application processes and visa requirements.

7. Collect business cards and write notes on the back to help you remember the employers you met.

Questions to ask employers

- What disciplines are you recruiting from?
- How many graduates are you looking to recruit?
- What is the recruiting process?
- When are your closing dates?
- Do you have a graduate program?
- Do you have vacation positions?
- What are the main career pathways within your organisation for a graduate with my background?
- What personal qualities do you look for in a graduate?
- What particular skills and experience does your organisation value?
- Can you tell me a bit about the culture of your organisation?
- What are the benefits and challenges of working at your organisation?
- How does your organisation value postgraduate study/specialization?

Other questions I wish to ask employers...

Spoke to Claire, send application form by 2nd April 2012
Questions employers may ask you

While interviews will not be carried out at the fair, the company representatives may ask you a number of questions. You must be prepared to talk about yourself, your interests and your goals.

• Why are you attending the Curtin Careers Fair?
• What attracted you to study this degree?
• Where do you see your career beginning and why?
• What is important for you in an employer?
• What are your long-term career goals?
• What do you know about our organisation?
• Why would you like to work with our organisation?
• Where do you see yourself in 5 years time?
• What do you feel your strengths and weaknesses are?
• What work experience do you have?
• What have you done along side your degree to increase your chances of securing a graduate position?

What’s next...? after the Careers Fair

It’s a good idea to keep a record of whom you met at the Careers Fair and the information about employment opportunities with their organisations.

You can use the table below to write down your top 5 potential employers and all the information associated with the employment opportunities they offer.

Recruits: Science and Engineering
Graduates/Vacation Work/Work Experience

Which Degrees Do We Recruit?
Science and Engineering
- Chemistry
- Engineering
- Environment / Sustainability
- Mining / Mapping / Resources
- Electrical Engineering
- Engineering Management
- Geographic and Geospatial Information Science
- Geology
- Geophysics
- Mechanical Engineering
- Metallurgy
- Mining
- Mining Geomechanics
- Sustainability Management

Description
Barrick is the world’s leading Gold Miner with a global workforce of over 20,000 people. Our Australia Pacific Region has nine gold and copper operations across four countries. Barrick’s vision is to be the world’s best gold company by finding, acquiring, developing and producing quality reserves in a safe, profitable and socially responsible manner.

What We Offer Curtin’s Graduates
By joining Barrick, you’ll be a valuable member of a friendly, diverse and high-achieving team. Our commitment to support Graduate’s career aspirations means genuine opportunities for a rewarding and exciting career that only a world-class gold mining company can provide. All of our Graduates are eligible to participate in a global development program giving them exposure to all aspects of the mining process, senior management in the business and the opportunity to travel.

What We Look For In Applications
To join our team, Barrick looks for people who have commitment, drive, and a positive attitude that helps deliver winning results. Successful Graduates to join Barrick are results-driven, entrepreneurial, accountable, and have integrity. Barrick’s Vision & Values reflect a culture where people are empowered to make decisions and accomplish their goals on a daily basis.

How To Apply
- Graduate applications are expected to be open from 1 March 2012.
- Graduates are directed to apply via our careers page http://www.barrick.com/careers.
- Select the tab “Job Search”.
- Enter in the key words, ‘Graduate’ to find the correct position to apply to and follow the instructions on the advertisement.
- Graduates are encouraged to apply to the requisition which corresponds to their Degree (i.e. Mine Engineering or Geology).
- Applications MUST contain a Cover letter, CV and Academic Transcript in order to be considered.
- Barrick recommends Graduates record any vacation or industry specific work experience they may have completed on their CV’s. If they have worked on a Barrick site please also state which site and for how long.
- Graduate applications will be screened from April 2012 and candidates will be contacted directly for interviews and site visits.
- Unsuccessful applicants will be notified once all positions have been filled.

We would like to thank the following organisations for their support. Please ensure that you visit each of them on the day of the fair.
ACCA
http://www.ausnz.accaglobal.com/

Recruits: Curtin Business School
Professional Membership

Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
Curtin Business School
• Accounting

Description
ACCA (the Association of Chartered Certified Accountants) is the global body for professional accountants. We aim to offer business-relevant, first-choice qualifications to people of application, ability and ambition around the world who seek a rewarding career in accountancy, finance and management.

What We Offer Curtin’s Graduates
We support our 147,000 members and 424,000 students throughout their careers, providing services through a network of 83 offices and active centres. Our global infrastructure means that exams and support are delivered at a local level, directly benefiting stakeholders wherever they are based.

What We Look For In Applications
To qualify as an ACCA member, you will need to complete:

• a minimum of 5 of 14 exams (nine are eligible for exemption,
• the practical experience requirement,
• the Professional Ethics module.

How To Apply
The ACCA Qualification should take about three to four years to complete on average. This is based on someone working full time, studying part time and who registers with the minimum entry requirements. The length of time can vary depending on your individual situation and you will have 10 years from the date you register to complete the ACCA Qualification exams.

You can choose how you study, how often you sit your exams and where you get your relevant practical experience. But we do always recommend you do the practical experience along with passing your exams if possible.

Your study options include full-time courses, part-time day or evening courses, distance learning, weekend courses and revision courses. You can choose from a variety of different study options. So as well as registering with us, you will need to make these decisions too.

Search ACCA’s tuition provider directory in the Related links list on the left-hand side of the page.

AMEC
http://www.amec.com/careers/graduates.htm

Recruits: Science and Engineering
Graduates, Internships and Work Experience

Australian Permanent Residents

Which Degrees Do We Recruit?
Science and Engineering
• Engineering
• Chemical Engineering
• Electrical Engineering
• Mechanical Engineering

Description
AMEC is a focused supplier of consultancy, engineering and project management services to the world’s oil and gas, minerals and metals, clean energy, environment and infrastructure markets. The graduate program is part of the minerals and metals division.

What We Offer Curtin’s Graduates
Our graduate development programme is where you get to put those years of studies into practice. From your first day as a Graduate Engineer, you will work with experienced Engineers in different business areas. Modules designed on a rotational basis will ensure that you are involved in a range of processes from the conceptual, through to the detailed design and commissioning phases.

What We Look For In Applications
We are looking for people who are determined, enjoy getting stuck into a problem and solving it. As we specialise in the interesting and challenging projects, we also like you to be innovative and practical. Innovative enough to look outside the square for solutions, but also be practical enough to apply that innovation to the issues at hand.

How To Apply
Please ensure that you attach a copy of your covering letter, resume and current academic transcript.

Which Degrees Do We Recruit?

Science and Engineering

- Architecture / Planning / Built Environment
- Engineering

Description

Globally, Arup is one of the largest and most respected names in the built environment. We’ve been instrumental in some of the world’s most impressive projects. We’re proud of the values we live by, summarising our approach in a simple statement – We shape a better world. We achieve this goal through teamwork, creativity and a belief in sustainability.

What We Offer Curtin’s Graduates

We fully understand that when you’re starting out, you’re hungry to explore possibilities. Our extensive experience integrating graduates into the industry allows us to put you in the thick of it from the word ‘go’ – you’ll be exposed to big and exciting projects from the moment you step through the door. You’ll be client facing and using your knowledge to bring ideas and engineering ingenuity to the table – and the world.

What We Look For In Applications

We’re seeking graduates who are full of ideas, energy and imagination. You will need to have recently completed your degree or be in your final year of study.

How To Apply

See our website http://www.goarup.com.au

At Arup, new ideas are always valued. For years, we’ve been integrating graduates into the industry, so we have what it takes to put you in the thick of it from the word ‘go’! From the moment you step through our door, you’ll be introduced to big and exciting projects. You’ll also be dealing with clients and using your knowledge to bring fresh perspectives and engineering ingenuity to the table – and the world.

We’re proud of the values we live by, and summarise our approach in one simple statement – we shape a better world.

We achieve this goal through teamwork, creativity and a belief in sustainability. We also recognise the role we play in forming new environments and delivering great solutions.

If you’ve got a head full of ideas, incredible creative energy and a really good imagination, please visit our new Graduate Site at www.goarup.com.au to see exactly how far you can go.

AusAID

Recruits: All Disciplines
Graduates

Australian Permanent Residents

Which Degrees Do We Recruit?
• Centre for Aboriginal Studies
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
AusAID is the Australian Government agency responsible for managing Australia’s overseas aid program. The objective of the Australian aid program is to assist developing countries reduce poverty and achieve sustainable development, in line with Australia’s national interest.

AusAID provides advice and support to the Minister for Foreign Affairs on development policy, and plans and coordinates poverty reduction activities in partnership with developing countries. AusAID leads and coordinates Australia’s responses to humanitarian disasters and represents Australia in international development forums. AusAID’s head office is in Canberra and also has representatives in 37 Australian diplomatic missions overseas.

What We Offer Curtin’s Graduates
AusAID Graduates are recruited for one of three separate streams and participate in an accelerated development program. The two year program, beginning in early February 2013, includes participation in four work rotations across the agency. The Program provides an overview of AusAID and its operations, on-the-job training and skills development. Rotations are tailored depending on the graduate’s stream and interests and may include policy, program, corporate or sectoral functions. Graduates may have an opportunity to undertake an overseas rotation during the second year of the program. Graduates participate in an induction and training program consisting of courses, seminars and workshops to provide opportunities to acquire the appropriate knowledge and skills.

The training and work experience gained through the Graduate Program provides a solid foundation for a career with AusAID. We offer generous financial support for people wishing to pursue further studies relevant to their work. Other benefits include attractive salaries and conditions and family-friendly work practices.

What We Look For In Applications
We are looking for highly talented, motivated graduates who have excellent interpersonal and communication skills, demonstrated team skills and personal drive, exceptional analytical and research skills and a keen desire to work in the aid program.

How To Apply
Full details regarding the application and selection process are available on the AusAID website http://www.ausaid.gov.au/recruit.

Recruits: Graduates
Professional Membership

Australian Permanent Residents

Which Degrees Do We Recruit?
The ADF employs most Engineering disciplines including Aeronautical, Avionics, Communications, Civil, Electrical, Marine, Mechanical, Mechatronic, and Software.

Description
The ADF can offer you a wide variety of engineering positions. As a graduate, you’ll begin your career in the ADF as an Officer from day one, as we equip you with the skills and support required to lead and make decisions. What’s more you’ll be practicing in your chosen profession immediately, using state-of-the-art equipment, often in more advanced roles than if you were in a civilian job. We provide opportunities to further your training and qualifications both in Australia and overseas, ensuring great scope for career progression. If you’d like to find out more visit www.defencejobs.gov.au or email engineers@dfr.com.au

What We Offer Curtin’s Graduates
The Australian Defence Force (ADF) offers a huge variety of engineering roles: from the management of multi-million dollar acquisition projects, to maintenance, logistics and project engineering roles in support of the existing fleets of helicopters, tanks, ships and aircraft, through to rebuilding infrastructure as part of humanitarian operations overseas. Opportunities exist for undergraduates, recent graduates and experienced engineers in a wide range of engineering streams.

How To Apply
Call 13 19 01 now to book yourself in for aptitude testing and an appointment with a careers counselor. To apply online go to www.defencejobs.gov.au/recruitmentcentre.
Australian Secret Intelligence Service

Recruits: All Disciplines
Graduates
Australian Permanent Residents

Which Degrees Do We Recruit?
- Centre for Aboriginal Studies
- Curtin Business School
- Health Sciences
- Humanities
- Science and Engineering

Description
ASIS is Australia’s overseas intelligence collection agency. ASIS’s mission is to protect and promote Australia’s vital interests through the provision of unique foreign intelligence services as directed by the Government.

What We Offer Curtin’s Graduates
Working as an Intelligence Officer is a unique job that is challenging and exciting - it’s a role not just anyone can do. As an Intelligence Officer, you’ll gather intelligence overseas with the potential to help protect and promote Australia’s national interests and security.

What We Look For In Applications
Intelligence Officers plan, develop and manage intelligence operations overseas in often difficult environments that draw on their judgement, intellect and inner strengths. Intelligence Officers display personal courage, are highly motivated and have an innate sense of curiosity. They enjoy connecting with people from different cultures and overcoming obstacles to deliver results.

How To Apply
As a rough guide, the selection process for Intelligence Officers generally takes around seven months from the date of application to the offer of employment and covers a range of different selection phases.

The selection process may include some, or all, of the following:
- written application;
- written test;
- interview;
- referee checks;
- psychological testing;
- participation in an Assessment Centre;
- security assessment; and
- medical assessment, including testing for prohibited substances.

Following this lengthy selection process, as a successful applicant you will undertake extensive and demanding training in a residential environment. After passing the training course, you will have the opportunity to work overseas as an Intelligence Officer.

The application process requires the completion of an online form. Please ensure you follow the instructions provided for this detailed process to ensure the security and integrity of your personal information and application with ASIS.

Description
The ATO is the government’s main revenue collection agency. We manage and shape tax and superannuation systems that fund services and community benefits, for Australians.

We value our people and the specialist skills they bring. Building the capability of our people is a top priority. Many of our employees have had full and varied careers with us.

We are one of the largest public service employers in Australia with over 22,500 people located in more than 40 locations. We have a diverse workforce in terms of cultural backgrounds, demographics, skills and experience.

What We Offer Curtin’s Graduates
You will be part of a 12 month program offering career development, further training and challenging work. Our program is divided into six streams so your work, training and development are tailored to suit your area of interest.

Australian Youth Ambassadors for Development (AYAD)
http://www.ayad.com.au

Recruits: All Disciplines
Volunteers

Which Degrees Do We Recruit?
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
The Australian Youth Ambassadors for Development (AYAD) Program provides skilled young Australians the opportunity to volunteer overseas in Asia, the Pacific and Africa. The AYAD international volunteer program is an Australian Government, AusAID initiative supporting the Millennium Development Goals. Our volunteer work is committed to achieving sustainable development through capacity building, skills exchange and institutional strengthening.

What We Offer Curtin’s Graduates
The Australian Youth Ambassadors for Development (AYAD) Program provides skilled young Australians the opportunity to volunteer overseas in Asia, the Pacific and Africa.

What We Look For In Applications
If you have a passion for contributing to development, learning and assisting others to learn and broadening your experience through living and working in a developing country, the Australian Youth Ambassadors for Development (AYAD) program could be for you.

How To Apply
The application process for the AYAD program involves applying for ‘specific assignments’, just as you would a job. AYAD assignments are advertised online at http://www.ayad.com.au and include a description of the job, the Host Organisation and much more. The AYAD program has three intakes each year.

Description
At Bankwest, we’ve made a commitment to our customers. It’s something we like to call Happy Banking. Whether you’re talking to us, running your business with us or simply using our everyday banking services, we’re committed to making your experience as happy as possible.

What We Offer Curtin’s Graduates
At Bankwest we understand that your career is more than just a job. Plus, we offer a whole host of different career paths. So whichever direction you want to take, one thing is always the same - our commitment to your happiness.

We’re looking for the best people to make Happy Banking a reality for Australians - it’s about our customers and our employees, supporting communities and improving lives. We’re also committed to recognising the role everyone plays in our ongoing success through benefits and incentives, as well as all the practical and moral support you need to learn new skills, develop your career and shape our business.

How To Apply
Our application process is comprehensive. Once you’ve applied for a role online, our recruitment team will be in touch and, if you’re successful, we may invite you for one or more interviews. Then, all that’s left is assessment, comprehensive background checks and the offer process, at which point you officially join our happy banking revolution.

**Baulderstone Pty Ltd**

**Website:** http://www.baulderstone.com.au

**Recruits:** Science and Engineering

**Graduates, Vacation Work, Work Experience**

**Australian Permanent Residents**

**International Students**

**Which Degrees Do We Recruit?**

- Engineering
- Engineering Management

**Description**

Baulderstone has been ‘Creating what matters’ in Australian building and infrastructure for its clients and the community for over 80 years. It is one of the largest building and engineering companies in Australia, with 1,400 people across the country. Its iconic achievements include the Sydney Opera House, Sydney’s Anzac Bridge, Brisbane’s Story Bridge, Melbourne’s Etihad Stadium, the Adelaide Convention Centre and Perth’s Graham Farmer Freeway. Baulderstone is the winner of the Contractor Excellence award at the 2010 National Infrastructure Awards.

Baulderstone is part of Lend Lease, joining the Group in 2011. It is a business unit of Lend Lease’s Australian construction business whose capabilities focus on engineering, infrastructure construction, building and infrastructure services.

**What We Offer Curtin’s Graduates**

The Graduate Development Programme (GDP) at Baulderstone provides a framework for recruiting and developing our future leaders. Graduates are critical to the future success of Baulderstone and a programme of accelerated professional development is essential. The GDP aims to develop the technical and behavioural competencies and experience and knowledge required to lead the Company. It builds on Baulderstone’s policy of developing the strengths necessary to meet corporate goals.

**What We Look For In Applications**

When selecting our graduates we look for those who demonstrate strong personal characteristics in the areas considered important for success within our company. These include teamwork, innovation, problem solving, highly developed interpersonal skills and the ability to set goals and achieve them. We also value past work experience, participation in extra-curricular activities, experience in leadership roles and a strong academic record.

**How To Apply**

We attend Career Fairs and Industry Nights at the main universities in WA, NSW, VIC, SA and QLD regions. Our cut-off date for applications is generally 30 April for positions that will commence in December and January.

However, we do recruit throughout the year based on the demands of projects, so we accept applications at any point throughout the year.

Description
Camp Quality Australia is the children’s family cancer charity that believes in bringing optimism and happiness to the lives of children and families affected by cancer through fun therapy and education. They believe laughter is the best medicine.

What We Offer Curtin’s Graduates
We’re the optimistic charity specialising in fun therapy for children and their families living with cancer. It’s a great way to build valuable relationships with a great bunch of people. You’re likely to meet some truly inspirational kids. Volunteering for CQ becomes a great part of your life.

What We Look For In Applications
We look for fun and optimistic people who are ready to roll up their sleeves. Our volunteers have huge hearts, busy hands, and love a belly laugh! They have astounding spirits, generous hearts and a passion to help deliver exceptional programs and services.

How To Apply
1. Come into the office (100 Hay Street, Subiaco) to undertake an interview and complete application form.
2. Apply for a working with children card (if you do not already have one).
3. Once we have all of your paperwork is back and an interview has taken place we will conduct your referee checks.
4. If you are successful in your application, we will then organise for you to complete your first training (it is a requirement to do training every year).
5. Phew you’re at the end of the paper work and you will now be ready to go on your first camp!

Which Degrees Do We Recruit?

Health Sciences
• Health - Physical Therapy & Rehabilitation
• Health - Technology & Research
• Health Management & Awareness
• Nursing / Midwifery
• Biomedical Sciences
• Clinical Nursing
• Clinical Pharmacy
• Clinical Physiotherapy
• Nursing
• Pharmacy
• Public Health

Description
We are a premier clinic service providing noninvasive diagnostic investigations. Working as a physiologist in CVS/CRS is a fun, challenging and rewarding career path. Team members receive opportunity to work directly with patients and practitioners to assist in the investigation of cardiorespiratory diseases. There are a number of different tests and locations available, which brings diversity and variety to your daily duties. There is also a real sense of “making a difference to a persons quality of life” and the knowledge that your patients are receiving optimal consideration in management of their health care.

What We Offer Curtin’s Graduates

There are opportunities for students to gain work experience or full time positions as cardiac physiologists and respiratory/sleep physiologists.

• Training and education is offered ‘in house’ and post graduate qualifications can be obtained with the full support of our company.
• Take your career where you want to. The opportunity is open to advance at your own pace or diversify into other fields of interest.
• Receive continual feedback from close interaction with senior staff and directly from cardiologists.
• Develop advanced skills to think like a clinician. Understand pathologies and the management for corrective therapy.

What We Look For In Applications

We are currently seeking highly motivated individuals who have a passion for working with people. CVS/CRS are seeking to fill a number of full-time positions, in both the cardiac and respiratory/sleep disciplines. To be considered as a candidate you must

• Demonstrate proficiency in computer applications
• Have excellent written and interpersonal skills
• Be willing to align with company core values that facilitate the best work environment and patient care
• Have long term commitment to furthering education and skill development
• Enjoy challenges and the benefits of reaching milestones and targets

How To Apply

To be considered for this exciting opportunity to work with CVS/CRS, please submit your resume and cover letter to CVS Careers at careers@cvs.net.au or telephone on 1300 887 997 and ask for Adam or Marissa to discuss available positions.

Clough

Recruits: Science and Engineering
Graduates, Vacation Work
Australian Permanent Residents

Which Degrees Do We Recruit?
Science and Engineering
- Mechanical
- Civil/Structural
- Construction
- Electrical
- Instrumentation
- Chemical/Process

Description
Clough is an integrated Engineering, Procurement and Construction (EPC) contractor specialising in the delivery of world class projects across Australia and South East Asia. Since 1919 Clough’s full spectrum EPC services have successfully helped our clients make their vision a reality.

Today Clough people design, construct, commission and maintain leading-edge facilities for the world’s largest energy companies.

What We Offer Curtin’s Graduates
Working at Clough means joining over 3500 people who deliver for a career journey that provides innovative development pathways to help you reach your ultimate potential. You’ll receive flexible incentives and benefits and be part of a company that is large enough to provide choice and challenge, though small enough to ensure you feel part of the team.

As a graduate employee you’ll be assigned a senior staff member as a mentor, and will be paired with a previous graduate as a ‘buddy’ to provide the guidance and support required to navigate the initial steps of your career.

We provide the right kinds of tools, professional and technical training and practical hands on experience to ensure all our graduates can achieve personal and professional success.

What We Look For In Applications
Opportunities exist for talented engineering graduates in Mechanical, Civil/Structural, Construction, Electrical, Instrumentation and Chemical/Process engineering disciplines. We are seeking aspiring engineers with a thirst for knowledge/experience and who work well in a team.

How To Apply
For additional information on Clough, the Graduate Development Program and our current vacancies please visit: www.clough.com.au/careers
Applications close on 30 April 2012.

Which Degrees Do We Recruit?
Curtin Business School
- Accounting
- Economics / Finance
- Management

Description
CPA Australia is one of the world’s largest accounting bodies with a membership of more than 139,000 finance, accounting and business professionals across the globe. Our core services to members include education, training, technical support and advocacy. Staff and members work together with local and international bodies to represent the views and concerns of the profession to governments, regulators, industries, academia and the general public.

A Certified Practicing Accountant (CPA) is a finance, accounting and business professional with a specific qualification. The CPA designation is a mark of high professional competence. It indicates a soundness in depth, breadth and quality of accountancy knowledge. The designation is widely regarded by employers and members. It provides members with an internationally recognised postgraduate qualification as well as the opportunity to complete specialist training and continuing professional development (CPD).

What We Offer Curtin’s Graduates
- Internship opportunities
- Access to top employers
- Local and international graduate opportunities
- Platform to expand your professional network

The CPA Australia designation is a mark of high professional competence and is widely regarded by members and employers alike. CPA Passport is a global network for accounting and finance students, graduates and professionals searching for a career beyond number crunching. Connect with CPA Passport and gain a career advantage that leads to endless possibilities.

Curtin Careers Centre
http://www.careers.curtin.edu.au

The Curtin Careers Centre services current Curtin students and Curtin alumni up to 18 months beyond graduation. Since the re-establishment of a Career Service at Curtin University in 2006, the Curtin Careers Centre has been working closely with the University Community and industry to source, develop and deliver career development programs and resources.

The purpose of the Curtin Careers Centre is to:

• Facilitate successful career transitions, especially study to employment and/or further study
• Enhance students ability to develop lifelong skills in managing their careers
• Develop positive relationships with employment and external constituencies
• Work in collaboration with faculty members for the delivery of career development learning opportunities within curriculum
• Promote and support Work Integrated Learning opportunities; and
• Be actively involved in relevant research endeavours

The Curtin Careers Centre is for all students, whether you are an undergraduate, postgraduate by research or coursework, PhD student, recent school leaver, mature age student or returning to study. Career management skills are applicable at all stages in the career building process.

Email us at careers@curtin.edu.au if you have any enquiries regarding your study, employment and career decisions.

Description
Deloitte is a leading advisory, audit, tax and consulting firm. Our 5,500+ team of professionals serve 85 of the top 100 of Australia's largest publicly owned companies, family and private businesses, and all three tiers of government. Globally, Deloitte has over 180,000 people in 153 countries and generates an annual revenue of more than $US28 billion.

What We Offer Curtin’s Graduates

Deloitte Graduate Opportunities (Final year students) - Join Deloitte in early 2013 as a Graduate for a career that will stimulate, reward and motivate you like no other. Surrounded by a large peer group, you’ll be supported by a dedicated mentor and counseling team who will work with you to build you technical and business skills. From the outset, you will be working with a range of clients and gaining exposure to a variety of industries.

Deloitte Summer Vacation Program (Penultimate year students) - The Summer Vacation program is your opportunity to gain practical and paid work experience at Deloitte before embarking on your final year of study. Spend three weeks from November to February gaining exposure to client work, our award-winning learning and development programs, and social events, with the prospect of securing a Graduate position with the firm. If you’re in your penultimate year at university you are eligible to apply.

Deloitte Technology Development Program (Technology students) - The DDP is a one-day interactive program, offering you professional development, an insight into life at Deloitte and the opportunity to secure a Summer Vacation or Graduate Program. If you are a technology student you are eligible to apply.

Deloitte Internal Careers Fair (All students welcome) - Deloitte Internal Careers Fair is a unique opportunity to find out about the different areas of Deloitte by coming along to our office and talking to our representatives.

What We Look For In Applications
Well rounded students with great communication skills, achievement drive and initiative.

How To Apply
Follow our application process at http://careers.deloitte.com/australia/students/opportunities.aspx

Department for Child Protection

http://www.dcp.wa.gov.au

Recruits: All Disciplines
Graduates, Vacation Work, Work Experience
Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
• Centre for Aboriginal Studies
• Health Sciences
• Humanities

Description
The Department for Child Protection is the key Western Australian government agency responsible for child protection and family support services. The Department protects and cares for children and young people who are in need, and supports families and individuals who are at risk or in crisis. The Department delivers some of the most critical statutory services for the community in Western Australia.

What We Offer Curtin’s Graduates
The Department for Child Protection has a variety of career opportunities within a range of specialist areas in the field of child protection. You may start off your career as a Child Protection Worker learning the ropes and receiving guidance from your senior colleagues and mentors only to find that one day you are the senior officer providing the mentoring and guidance! From the area of Parent Support, to Family Domestic Violence to Placement Services there is a team that will suit you and your skills.

By providing on and off the job training/learning opportunities, performance development and, in some instances, the opportunity to act in a position at a higher level, the Department can assist you to develop your skills and further your chosen career path. The Department also offers flexible working arrangements, additional public sector leave entitlements, regional incentives if you choose to work in regional locations and access to a range of learning and developmental opportunities.

Contact Details:
Website: http://www.dcp.wa.gov.au/
Email: employment@dcp.wa.gov.au
Phone: 08 9222 2532

The Department can also offer graduates the opportunity to work in regional offices from Wyndham in the North Kimberley to Albany in the Great Southern. There are also opportunities to work with Aboriginal communities in remote regional areas across the state. For more information about working in country WA please click here. For more information on other employment opportunities please visit http://www.dcp.wa.gov.au.

What We Look For In Applications
Not all positions require a qualification, however, our child protection roles come under the Graduate Welfare Officer Specified Calling. The qualifications required to obtain a child protection specified calling position within the Department are a degree in Social Work, Psychology or relevant Human Services area.

Specified Calling (SC) positions attract a salary which reflects the required qualifications and complexity of the role. Applicants with a recognised Bachelor of Social Work or a Bachelor of Psychology are automatically eligible to apply for Specified Calling positions with the Department.

How To Apply
The Child Protection Worker Pool is an open pool, meaning there is no end date and you can apply at any time!

Please visit the WA Government Jobs Board at www.jobs.wa.gov.au and search the following references to apply online:
• CP9185 (Metropolitan)
• CP9186 (Country)

Unless otherwise specified, your application needs to include a response to the selection criteria in the Job Description Form, along with a current resume and the application form.

As an employee your benefits could include:
✓ Commencement salary of $55,677 (SQL 1).
✓ Four weeks annual leave.
✓ 17.5% annual leave loading.
✓ Flexible working arrangements.
✓ Supportive performance development.
✓ District allowance and additional benefits for staff based in some regional/remote locations.

How do I apply?
The Child Protection Worker Pool is an open pool, meaning there is no end date and you can apply at any time!

Please visit the WA Government Jobs Board and search the following references to apply online:

Department of Mines and Petroleum

Which Degrees Do We Recruit?
- Centre for Aboriginal Studies
- Curtin Business School
- Health Sciences
- Humanities
- Science and Engineering

Description
Department of Mines and Petroleum
The State’s lead agency in attracting private investment in resources exploration and development through the provision of geoscientific information on minerals and energy resources, and management of an equitable and secure titles systems for the mining, petroleum and geothermal industries.

Department of State Development
The Department of State Development provides leadership across Government to drive responsible development for Western Australia’s future. Working closely with industry, communities and Government agencies the department delivers significant State initiatives for the betterment of communities throughout Australia.

What We Offer Curtin’s Graduates
Our Graduate Program is exciting and unique! It involves three lead Western Australian Government departments working together to offer opportunities to help develop the professional skills and knowledge of graduates.

What We Look For In Applications
The departments seek graduates with a wide range of professional and technical qualifications, and are particularly interested in employing recent university graduates who can:
- Use appropriate techniques to research.
- Use a range of techniques and initiatives to identify and resolve problems.
- Work collaboratively to resolve issues.
- Draft a range of written documents.
- Communicate clearly and effectively, including within a small team environment.

How To Apply
Applications for the Graduate Program open at the start of second semester each year. During this time applications can be submitted using our simple online application system accessible via each Department’s website.

Your suitability for interview will be assessed from your written application and your Curriculum Vitae (CV). If you are shortlisted, the process includes an interview and referee checks. Some positions may also require completion of a National Police Clearance and/or Pre-Employment Medical Check.

Downer EDI Mining
www.downergroup.com

Recruits: All Disciplines
Graduates, Internships

Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
Downer EDI Mining has been successfully delivering contract mining and civil earthmoving services to an impressive list of global clients for almost 90 years. It is now one of Australia’s leading diversified mining contractors, with over 4,000 employees and 1,200 contractors working across more than 50 sites in Australia, New Zealand, Papua New Guinea, South America and South Africa.

We support our coal and metalliferous mining clients at all stages of the mining lifecycle, with a wide range of services.

Our current client base comprises a mix of local and international clients, such as AngloGold Ashanti, BHP Billiton, BMA Coal, Codelco, Fortescue Metals Group, Idemitsu Australia Resources, Ok Tedi Mining, Peabody Energy Australia, Rio Tinto, Solid Energy, TRUenergy and Wesfarmers Resources.

What We Offer Curtin’s Graduates
3 year structured program (you can finish it in 15 months)

Regular rotations, with the placements at our corporate offices in Brisbane and Perth, and at open-cut and underground mine sites across Australia giving you the opportunity to live and work in different parts of the country. There could even be opportunities to visit our overseas operations!

You will be partnered with a dedicated Mentor who will give you regular career development feedback and advice to ensure you are heading in the right direction

You will be allocated a Career Champion, usually an executive level manager within the business, who will assist and guide your development from a strategic level.

Downer EDI Mining offers industry leading cash remuneration packages, along with all the benefits that come with working for the Downer team

Completing our graduate program will open the door for advancement opportunities within the business as suitable positions arise through our continued growth.

Your program is self paced and how fast or slow you progress through the program is entirely up to you. Most important is that your success will come through your individual achievements and development - not on a specific timeframe

What We Look For In Applications
Dedicated and hardworking Graduates who are willing to go the extra mile and learn as much as they can to develop their career opportunities with Downer EDI Mining.

How To Apply
There are a number of ways candidates can apply for vacancies with Downer EDI Mining. The best place to start is via our Careers Website for details.

Science and Engineering
• Civil Engineering

Description

Fulton Hogan is a major Australasian civil contracting company providing a broad range of products and services to customers in the roads, quarrying, civil contracting, rail, infrastructure maintenance and land development sectors. Our values and proven business model have combined to deliver a consistently strong performance over 76 years.

Founded in New Zealand in 1933 and employing 5,500+ our strong team across New Zealand and Australia, continues to grow and diversify into new markets, taking on new challenges and making Fulton Hogan one of Australasia’s fastest growing civil contracting companies.

What We Offer Curtin’s Graduates

Fulton Hogan offers graduate civil engineering students the opportunity to work with one of the fastest growing and dynamic civil construction companies. Unlike other contractors, Fulton Hogan offers clients a vertically integrated business structure which includes resource and construction capabilities. This means that Fulton Hogan is truly a “one-stop” shop for civil construction and engineering.

A future with Fulton Hogan ensures you experience, career diversity and development, along with:
• S.A.F.E (Staying Accident Free Everywhere) workplace through a strong safety culture
• Commitment to creating a culture of Zero Harm
• Exposure to a broad range of civil engineering operations
• Commitment to career and personal development
• Regular contact with senior staff, including a dedicated mentor/buddy
• Competitive remuneration packages
• 76 years industry experience.

Fulton Hogan’s Graduate Program is a 12 month rotational program, providing graduates with the opportunity to gain experience in Construction and Surfacing.

What We Look For In Applications

At Fulton Hogan, we are looking for skilled graduates with enthusiasm and determination, combined with a real commitment to establishing a career in the challenging and vibrant civil engineering sector.

Description

Fortescue is the third largest iron ore producer in Australia. More importantly, we are still growing rapidly and bringing new projects online. The name Fortescue is now associated with the ability to turn a vision into reality. That’s why in just a decade we’ve grown from a startup organisation to a S&P/ASX50 company.

Our initial mine, rail and port supply chain was constructed in less than two years from 2006. In our first three years of operation from 2008 we progressed from loading our first ore on to a ship to earning revenue of $14 billion.

We now have more than 8000 employees and contractors and reported a revenue of almost $5.5 billion for 2011.

What We Offer Curtin’s Graduates

A two year structured program for graduates with exposure to our site operations and business functions aimed at encouraging ‘whole of business’ thinking. We offer real work and a chance to make a tangible difference with guidance from our experienced technical team. We also run a mentoring program for our graduates.

Our vacation work is equally meaningful and each student is paired with a designated Fortescue team member to provide professional support and mentoring over the assignment period.

What We Look For In Applications

We are looking for people who are positive, enthusiastic and keen to make a difference. As part of the Fortescue Family you are expected to set stretch targets and achieve them, do what you say will do and look after your workmates as your family.

How To Apply

Fortescue only receives applications online through our website: www.fmgl.com.au/jobs

Applications open on 1 April 2012 and close 31 May 2012. Please submit a cover letter and CV.

We expect to interview through July and August with employment offers by the end of September.

Phone: 08 6218 8888
Fortescue and your career

Although a relatively young company, we have repeatedly achieved what was previously deemed unachievable. Our success is due to our approach – we are determined to reach our goals and do so through a modern, flexible and dynamic culture which values and encourages contributions from all role levels. We own and operate both established and start-up operations across construction, port, rail and mining, offering a vast diversity of career choices within the one company.

It’s an exciting time to be in our industry. It’s a unique moment in Australian history. And it’s a great window of opportunity for you to join the Fortescue Family.

Our graduate program

We offer a two year structured graduate program that will give you exposure to a range of working environments aimed at encouraging a holistic way of thinking about the business. The focus of our program is on building both technical and core business skills through experiential learning and formal training.

Our vacation program

Our vacation placements offer a great opportunity to experience working in a practical and creative environment. We provide students with meaningful work that provides invaluable experience in your chosen field of study. The vacation program offers work experience for a period of 12 weeks from December to February each year, and roles are predominately located on site locations requiring a fly-in, fly-out (FIFO) roster.

Our aboriginal cadetship program

Our cadetships are for full-time Aboriginal students undertaking a diploma, an advanced diploma or their first undergraduate degree. You can join the program at any point while you are studying. We provide paid work placements of 12 weeks for each year of your cadetship and professional guidance and mentorship through ongoing employment once you have successfully completed your cadetship.

Application process

Please apply by submitting a cover letter and CV on our website: www.fmgl.com.au/jobs

Applications open on 1 April and close 31 May 2012.
Graduate Program Western Australia 2013 Rotational Program

Fulton Hogan is a major Australasian civil contracting company providing a broad range of products and services to customers in the roads, quarrying, civil contracting, rail, infrastructure maintenance and land development sectors. Our values and proven business model have combined to deliver a consistently strong performance over 76 years.

Founded in New Zealand in 1933 and employing 5,500+ our strong team across New Zealand and Australia, continues to grow and diversify into new markets, taking on new challenges and making Fulton Hogan one of Australasia’s fastest growing civil contracting companies.

Fulton Hogan offers the opportunity to work with one of Australia’s fastest growing and dynamic civil construction companies. Fulton Hogan offers clients a vertically integrated business structure which includes resource and construction capabilities.

A career with Fulton Hogan ensures you experience diversity and development, along with:

- S.A.F.E (Staying Accident Free Everywhere) workplace through a strong safety culture.
- Commitment to creating a culture of Zero Harm
- Exposure to a broad range of civil engineering operations
- Commitment to career and personal development
- Regular contact with senior staff
- Competitive remuneration packages

Fulton Hogan’s Graduate Program is a 12 month rotational program, providing you with the opportunity to gain experience in every area of operations across the company.

Who we’re looking for

At Fulton Hogan, we are looking for skilled graduates with enthusiasm and determination, combined with a real commitment to establishing a career in the challenging and vibrant civil engineering sector.

To be eligible, you will have completed your degree or be in your final year of studying, have the right to work in Australia and hold a current Australian driver’s licence.

Degrees/Disciplines

We are currently seeking Graduates from the following disciplines:

- Civil Engineering
- Health & Safety
- Environmental Management

Applications close 30th April 2012.
Golder Associates
http://www.golder.com/careers

Recruits: Science and Engineering
Graduates, Vacation Work, Work Experience
Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
Science and Engineering
• Engineering
• Environment / Sustainability
• Geographic and Geospatial Information Science
• Mining
• Mining / Mapping / Resources
• Renewable Energy Electrical Power Systems
• Sustainability Management

Description
The winner of sixteen BRW Client Choice Awards, Golder Associates is a respected, employee-owned, global company providing consulting, design, and construction services in our specialist areas of earth, environment, and the related areas of energy. From 160 offices worldwide, our more than 7,000 employees work with clients to manage their environmental and engineering activities in a technically sound, economically viable, and socially responsible manner.

What We Offer Curtin’s Graduates
Our staff benefit from:
• An option to purchase shares in Golder Associates
• Career and personal development opportunities and support of personal growth
• Employee mentoring program
• Health and Well-being initiatives such as additional leave options
• Subsidised gym memberships
• Competitive benefits and remuneration packages
• Further study opportunities

What We Look For In Applications
Tell us about yourself...you’re the ideal fit for Golder if you’re passionate about your work. You’re a high achiever and driven to develop your skills. Your written, verbal and interpersonal skills are excellent. Plus, as many of our graduate roles require fieldwork, it would help if you enjoy travelling and the outdoors. If you have previous work experience in a relevant area, that’s also a definite asset.

How To Apply
Visit us at www.golder.com/careers and submit your application. Please note you must upload a covering letter, CV & academic transcript to your application. Please note the system can only accommodate the upload of 1 document under 1Mb.

HLB Mann Judd

http://www.hlbc.com.au

Recruits: Business
Graduates, Vacation Work

Australian Permanent Residents

Which Degrees Do We Recruit?

Curtin Business School
• Accounting

Description

HLB Mann Judd is a leading mid-tier accounting and financial services firm with member firms throughout Australia and internationally. As a member of HLB International, the firm is part of a network of professional accountants and business advisers with offices in more than 100 countries throughout the world. This large network of resources offers a new accountant unlimited opportunities. We offer the best of both worlds - large enough to be strong and diverse and small enough to be efficient and responsive.

What We Offer Curtin’s Graduates

From your first day at HLB Mann Judd, you will be involved in challenging and exciting work and will join a team that provides excellent client service. With our diverse client base we are able to offer you the opportunity to gain exposure to a broad range of industries. Our policy is to give you all the skills you need to have a successful and rewarding career through on-the-job learning, mentoring and ongoing training and development programs. Positions are available in our Business Advisory Services and our Corporate & Audit Services departments

• Graduate: 6-8 positions, commencing in July 2012 and February 2013.
• Winter & Summer Vacation Employment: 8 positions, two week placements split between our two divisions.

What We Look For In Applications

We are looking for motivated and enthusiastic graduates to join our team. HLB Mann Judd requires graduates who are well-rounded individuals that can demonstrate both a commitment to their studies as well as seek new challenges outside of university. Our graduates require excellent communication skills and an outstanding attention to detail.

To be eligible for graduate positions with HLB Mann Judd you need:
• To be undertaking a degree with an accounting major
• To be in your final year of study for a Graduate position
• To be in your penultimate year of study for a Vacationer position
• To be a Permanent Resident of Australia
• To have undertaken and passed the required subjects to commence the CA program

How To Apply

What do I need to send with my application?
• Cover letter
• Current Resume
• Copy of your Academic transcript

Honeywell

Website: www.honeywell.com.au

Recruits: Science and Engineering Graduates

Which Degrees Do We Recruit?

Graduates from Electrical, Mechanical, Mechatronics, Software and Chemical disciplines with interest in automation and control systems are encouraged to apply.

Description

This could be the beginning of something larger than you ever imagined. As a world leader in a diverse range of technologies, we will expose you to our complex integrated system solutions and services that make industries the world-over safe, secure, energy efficient, innovative and productive. You could find yourself working at sites as diverse as oil rigs, mines, metal refineries, correctional facilities, hospitals and even casinos. That's why if you’ve got big ideas and are passionate about bringing them to life, start your career with us.

What We Offer Honeywell Graduates

Because ordinary is boring – we know that as a new graduate, you’re looking for a career that is far from ordinary. That’s why you’ll enjoy working with us at Honeywell.

Using the latest technologies that focus on innovative solutions, new graduates will be trained and mentored so that you will enjoy dynamic career development and a team environment where challenge is part of daily life.

Honeywell has always believed investing in people, is investing in the organisation’s future. Our Honeywell Graduates are fundamental in building the organisation’s capabilities and developing future technocrats and leaders.

With our cutting edge training and development programs, we’ll give you all the information, skills, tools and resources you need to succeed. We will work with you to plan your career path, and identify the professional training you will need for your current role and for your future development. And, one of the most valuable things we offer you is the opportunity to apply your knowledge in a hands-on, commercial environment. Right from the start, you’ll work on real projects, with real clients, giving you as much exposure as possible.

You will earn an attractive and competitive salary package, along with opportunity to work with an excellent team. With study assist, global opportunities, activities, clubs and more, we provide everything you need to work, learn and play.

What We Look For In Applications

We seek extraordinary graduates who are looking for a front line role within a commercial and business environment and who enjoy working as a valuable member of a team. Extraordinary graduates with excellent interpersonal skills to lead our business. People who understand their own strengths and weaknesses and who help inspire others in the team to achieve their goals.

Joining our diverse team, you’ll be a cut above the rest. We are looking for graduates that have:
- strong academic and non academic achievement at university
- an ability to work within a team
- work experience
- excellent communication skills
- an understanding of what a customer is

How To Apply

Please apply online at our careers website – www.honeywell.com.au

ICON Engineering

Website: http://www.iconeng.com.au

Recruits: Science and Engineering Graduates, Vacation Work, Work Experience
Australian Permanent Residents

Which Degrees Do We Recruit?
Science and Engineering
• Chemical Engineering
• Electrical Engineering
• Petroleum Engineering

Description
ICON Engineering is an oilfield service company offering a range of services to oil companies and major oilfield contractors. Core services include facilities engineering services from concept through to construction, offshore installation and contracting, drilling rig upgrades and specialty oilfield equipment supply.

Formed in 1997, ICON has a long track record of providing cost effective and practical construction solutions, novel equipment development for drilling applications and innovative facilities designs aimed at reducing offshore construction risk. ICON also provides services for onshore oilfield developments. ICON has successfully executed hundreds of projects spanning the world’s major oil provinces including projects in Australia, Malaysia, Indonesia, Thailand, New Zealand, PNG, USA, Canada, Singapore and the UK. We understand local requirements and provide solutions and adapt our work methods to suit.

What We Offer Curtin’s Graduates
At ICON Engineering, we understand that people are our greatest asset and our culture is based around one of mutual respect, trust and accountability. We are a company that prides itself on providing innovative solutions to our clients, so we encourage thinking, learning and innovation, giving people freedom to make decisions in their work.

We are organised and structured to allow for maximum development of relationships between colleagues, managers and subordinates, and to enable the rapid formation of project teams to respond to client needs. Our people are able to have a say in the type of work they want to do and the type of career they want to have.

Career Development and Learning
At ICON, you are not locked into one type of job. You will be required to perform a wide variety of challenging tasks in your role, from working independently, working as part of a small team, forming part of a large project team or even running your own projects. You are encouraged to have a say in your career and help pick where you best fit into the company.

What We Look For In Applications
ICON Engineering is seeking motivated graduates who want to make a difference in the Oil and Gas industry, working within a dynamic team environment to achieve innovative and effective outcomes for our clients and success and learning for each other.

How To Apply
Apply by emailing hr@iconeng.com.au

Institute of Chartered Accountants

Website: http://charteredaccountants.com.au/students

Recruits: Business Graduates, Vacation Work, Work Experience
Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
Curtin Business School
• Accounting
• Economics / Finance

Description
Welcome to the Institute. We are the professional body for Chartered Accountants in Australia and members operating throughout the world.

Members serve the public interest through their obligation to uphold high standards of service within many facets of the economy; in public practice and commerce, and sectors including government, not-for-profit and academia.

The Institute has a pivotal role in promoting financial integrity in society. We do this through our leadership and our advocacy work on influencing policy and regulatory frameworks in Australia, and in relevant international settings. We represent up to 70,000 current and future business leaders, with more than 57,000 members, and around 13,000 talented graduates working and undertaking the Chartered Accountants Program.

Through the Global Accounting Alliance, Institute members are also part of an 800,000-strong network of professionals and leaders worldwide.

Established by Royal Charter in 1928, we have a long tradition of leading the Australian Chartered Accounting profession. You’re welcome to find out more about the work we do at charteredaccountants.com.au

Independent Market Operator

Australian Permanent Residents

Website: http://www.imowa.com.au

Which Degrees Do We Recruit?

Science and Engineering
- Mathematics
- Physics
- Economics / Finance
- Business Law / Legal Studies

Description

The Independent Market Operator (IMO) operates the Western Australian Wholesale Electricity Market (WEM) which commenced in September 2006 after the government of the day disaggregated the state’s electricity utility (Western Power) and created a wholesale market open to competition and private sector investment. The IMO was established to oversee this wholesale market.

In 2011, the IMO’s mandate was expanded to include gas as well as electricity when it was appointed to operate a Gas Information Service for Western Australia.

There are substantial benefits to the Western Australian economy in having a single organisation facilitating both the gas and electricity markets as they are closely linked, with approximately 60% of WA’s electricity being fuelled by natural gas.

Employees benefit from the IMO’s newly expanded role as they gain exposure to both markets, complementing their energy market experience.

What We Offer Curtin’s Graduates

- Excellent exposure to WA’s electricity and gas industries and a global understanding of these markets with scope to develop practical experience and skills that are transferable around the world;
- A highly competitive remuneration package and excellent employment conditions;
- Flexible employment arrangements to allow you to balance your work life with your personal interests and wellness perks including gym membership;
- Opportunities to participate in exchange programs with other national or international electricity markets;
- Training opportunities locally, nationally and internationally, a robust career development program and mentoring to support you in getting to know our business and;
- Excellent career progression opportunities at the end of your twelve-month Graduate Program.

What We Look For In Applications

As well as having a strong interest in learning about energy markets, we are looking for graduates who are client focused, enjoy working in a challenging business environment, have excellent communication and written skills and demonstrate initiative, sound judgment and highly developed analytical skills.

How To Apply

Hudson Recruitment will be managing our graduate recruitment process. For further information, please refer to the careers section on our Careers webpage at http://www.imowa.com.au.

You can also contact or apply to Hudson by emailing David Stritch, David.Stritch@hudson.com.au or by calling 08 9323 0244.

Contact Details: Website: http://www.imowa.com.au
Email: imo@imowa.com.au
Phone: 08 9254 4300
Independence Group is a Perth based Mining and Exploration Company experiencing significant growth and looking ahead to the future.

WE ARE COMMITTED TO GRADUATE DEVELOPMENT

Independence Group has a proud history of participating in the development of our people and we offer a range of roles that will provide new Graduates and Vacation students with the opportunity to become leaders in their fields.

With access to excellent mentoring and career development we offer the opportunity to:

• Gain practical experience;
• Work alongside industry leaders;
• Work on projects to solve real business issues;
• Develop and extend your decision making, communication and leadership skills; and
• Make a start to a rewarding and exciting career within the Mining industry.

LOCAL, NATIONAL and INTERNATIONAL

Our current operations and projects at the following locations could help you make a start to a promising career in the mining industry:

• Lightning Nickel - Long underground mine at Kambalda;
• Jaguar and Bentley Underground Mines (Zn-Cu-Ag) near Leonora;
• Tropicana JV Gold Project (AngloGold Ashanti 70%, IGO 30%) managed by AngloGold Ashanti;
• Stockman Project (Zn-Cu-Ag-Au) at Benambra in the East Gippsland region of Victoria;
• Regional exploration (Au-Ni-Cu-Zn-Ag) – in Australia and overseas;
• International exploration - Joint venture exploration projects in Argentina and Sweden.

WE OFFER

We offer Graduate and Vacation programmes in the following disciplines:

• Geology;
• Mining Engineering;
• Metallurgy and Chemical Engineering;
• Surveying; and
• Geotechnical Engineering.

ASK US OR APPLY

To obtain more information please contact Human Resources at recruitment@igo.com.au or go to our website: www.igo.com.au

Recruits: Engineering Graduates
Australian Permanent Residents
International Students (with working rights)

Who We Are
Wood Group Kenny comprises the four sister companies J P Kenny, MCS Kenny, MSi Kenny and Wood Group Integrity Management (WGIM). The combined Wood Group Kenny organisation provides engineering technology, management and integrity solutions throughout the life cycle of oil & gas and renewable energy products from concept phase through detail design into operation and abandonment.

What We Offer Curtin’s Graduates
Wood Group Kenny can offer you the opportunity to start your career in an exciting, innovative and forward thinking international company.

As a graduate engineer at Wood Group Kenny, you will be put on to live engineering projects from the outset. We believe this is the most beneficial method of development for our graduates; your knowledge and understanding of the industry will be accelerated through direct learning as you have the opportunity to work alongside some of the best and most respected engineers in the industry.

We offer graduates the opportunity to develop to their full potential through continuous professional development using a variety of blended learning techniques, such as; access to the Wood Group Kenny online training academy, outsourced and in-house training courses, site visits and in-house lunch & learns presented by current graduates, experienced engineers and oil and gas industry service providers.

Wood Group Kenny promotes an in-house Professional Development Programme (PDP) for all developing engineers. This programme aims to provide you with an opportunity to enhance qualifications and experience through networking, exchanging ideas and experience of the industry with fellow graduates and experts in the industry.

Wood Group Kenny encourages engineers to work towards Chartered Status, providing mentoring and support throughout.

What Qualifications Are We Looking For?
Engineering
- BS Mechanical
- BS Civil
- BS Materials Engineering
- BS Chemical

What We Look For In Applications
Wood Group Kenny is seeking talented and highly motivated graduates who can demonstrate the following personal qualities:
- Proactive approach;
- Thrives on challenges;
- Enthusiastic and eager to develop;
- Team player but able to work independently;
- Innovative;
- Strong interpersonal and communication skills.

How To Apply
Please forward your CV along with a cover letter and your academic transcripts to grads@woodgroup.com.au before 8 May 2012.

Our Graduate intake will be staggered with Graduates starting in September 2012 through to February 2013.

John Holland Pty Ltd

Recruits: Science and Engineering
Graduates, Vacation Work, Work Experience

Australian Permanent Residents
International Students

Which Degrees Do We Recruit?

Science and Engineering
- Architecture / Planning / Built Environment
- Civil Engineering
- Construction Management
- Engineering
- Environment / Sustainability
- Electrical Engineering
- Engineering Management
- Mechanical Engineering
- Mining / Mapping / Resources

Description

The John Holland Group is one of Australia’s largest and most diverse engineering, contracting and services providers. Our business consists of regional construction divisions and national specialist businesses, creating a depth of capability without equal in Australia. We are actively engaged in all facets of the construction industry and have the capacity and expertise to execute multi-disciplined projects of any size. Our core areas of construction activity include road transportation, water, marine, resource infrastructure and commercial building. In addition to this, our specialist businesses provide expertise in the areas of Structural Mechanical Process, Water, Rail, Roads, Power, Communications, Tunnelling and Services.

What We Offer Curtin’s Graduates

Opportunity and flexibility go hand in hand with our 2 year National Graduate Program. The program includes developmental activities, mentoring and potential opportunities to be engaged on a variety of projects within 11 different market sectors in the construction industry. It is a motivating journey that includes both personal and professional development opportunities with exposure to some of Australia’s most diverse and landmark projects, working within a strong, values-based organisation. Our goal is to provide graduates a strategic program offering career development and learning opportunities.

What We Look For In Applications

John Holland’s vision for its National Graduate Program is to attract, develop, motivate and retain top calibre Graduates, to join our organisation and become part of a team-focused culture within a rewarding and challenging environment. We are seeking resourceful, innovative, strong team players with excellent communication skills and enthusiasm.

How To Apply

John Holland’s has a comprehensive Graduate program with applications opening in January and closing at the end of April. Our website - http://graduates.johnholland.com.au/ gives further information on the recruitment process as well as frequently ask questions.

Vacation Work is also listed on the website with applications opening in October to commence work in December through to February.

Description
JurongHealth is the new public healthcare cluster formed to facilitate the integration of services and care processes within the hospital and across the community, so as to better serve the healthcare needs in the West. We will do this in collaboration with community partners including primary care providers such as General Practitioners and polyclinics, hospitals, long term care providers and voluntary welfare organisations.

JurongHealth is currently operating Alexandra Hospital and Jurong Medical Centre with a comprehensive range of clinical services for the community. www.juronghealth.com.sg
Like us on www.facebook.com/JurongHealthServices

What We Offer Curtin's Graduates
JurongHealth is Singapore’s public healthcare cluster formed to serve the healthcare needs of Western Singapore. JurongHealth is building the integrated healthcare hub comprising the 700-bed Ng Teng Fong General Hospital which will be twinned with the 286-bed Jurong Community Hospital to provide holistic care for patients. While we are designing and building the hospitals, we are also building our team. Be part of our exciting future, transform the future of healthcare and advance your aspiration as part of the pioneer team!

What We Look For In Applications
We are currently looking for like-minded individuals to join us in leading the future of integrated healthcare. Apart from patient care, you have ample opportunities to mentor and teach the next generation of specialists, and develop new clinical services and pilot innovative models of care. If you share the same passion, have a heart to serve and dare to take bold steps to transform care, we want to hear from you!

How To Apply
Interested candidates, please apply at http://www.juronghealth.com.sg/careers or careers@juronghealth.com.sg with your full resume including personal particulars, names of 2 referees, professional qualifications, career history, contact details and expected salary, together with testimonials and certificate of registration.

Science and Engineering
• Engineering
• Environment / Sustainability
• Chemical Engineering
• Communications Networks / Telecommunications and Networking
• Electrical Engineering
• Electrical Utility Engineering
• Engineering Management
• Mechanical Engineering
• Petroleum and Petroleum Well Engineering
• Sustainability Management

Description
KBR is headquartered in Houston, Texas, also known as the energy capital of the world. The Company employs over 35,000 people worldwide in locations that include the U.S., Australia, Africa, the U.K., Asia and the Middle East. KBR delivers a wide range of services through its Downstream; Gas Monetization; Infrastructure and Minerals; International Government, Defense and Support Services; North American Government and Logistics; Oil and Gas; Power and Industrial; Services; Technology; and Ventures business segments, and differentiates itself as a technology-driven engineering, procurement and construction (EPC) company.

KBR has built a proud history and a leading market position in the government and infrastructure sectors by being a low-cost, high-efficiency and absolutely reliable service provider. Not only is KBR the largest contractor for the United States Army and a top-ten contractor for the U.S. Department of Defense, it is currently the world’s largest defense services provider.

KBR is also an industry leader in transforming hydrocarbon resources into value across all sectors of the energy and chemicals industries. By designing and constructing energy and petrochemical projects that offer the latest and best process and design technologies, we have established a solid position as a partner to oil and gas operators in meeting the ever-increasing demand for energy.

What We Offer Curtin’s Graduates
KBR seeks the best and brightest graduates in engineering, science, management and marketing, as well as other key disciplines. Those selected receive training and experience that greatly enhances long-term career success as we believe that college graduation is just the beginning of lifelong learning and growth.

At KBR, we:
• Reward initiative and achievement
• Foster teamwork
• Offer competitive compensation
• Provide internal opportunities

What We Look For In Applications
We value the following capabilities:
• Technical competence
• Strong oral and written communication skills
• Relationship building and teamwork
• Planning and organizational skills
• Adaptability

KPMG

http://www.kpmg.com.au

Recruits: All Disciplines Graduates/Vacation Work/Work Experience
Australian Permanent Residents
International Students

Which Degrees Do We Recruit?

Curtin Business School
- Accounting
- Business Law / Legal Studies
- Economics / Finance

Economics, Business or Finance degree, completing) a Commerce, Commerce/Law, Business Law / Legal Studies, and/or Real Estate Advisory.

What We Offer Curtin’s Graduates

We seek people who have completed (or are completing) a Commerce, Commerce/Law, Economics, Business or Finance degree, preferably majoring in Accounting.

KPMG recruits from all disciplines

What We Look For In Applications

We seek people who have completed (or are completing) a Commerce, Commerce/Law, Economics, Business or Finance degree, preferably majoring in Accounting.

We're looking for well rounded applicants. Team players who are also innovative thinkers, people who relish the challenge of solving problems and who can communicate their ideas with conviction and passion. People who keep on learning, who want to be at the leading edge of their chosen profession, and who want to make a difference. People who display integrity and objectivity in everything they do. If you’re that kind of individual, then at KPMG you’ll be able to develop a career at your own pace.

How To Apply

Learning about KPMG and completing the online application is the first stage in the selection process. Below is our selection process between deciding to apply and receiving a job offer.

1. Application phase
2. Psychometric assessments
3. Final stage
4. Our offer

If you’re successful at the final stage of our process you’ll be contacted by KPMG and a written offer of employment will be forwarded to you. If you have any questions about our offer, or about working at KPMG, then we encourage you to talk to our Graduate Recruitment team.

Monadelphous
Navitas Workforce Solutions

Recruits: Business, Science and Engineering
Graduates, Vacation Work, Work Experience

Australian Permanent Residents
International Students

Which Degrees Do We Recruit?
• Curtin Business School
• Science and Engineering

Description
Navitas Workforce Solutions has established a specialist division to offer internships and graduate employment support services across Australia to international students and graduates. Our main focus is to develop relationships with key market leaders to provide the very best internships and related services to our participants. We are committed to developing the workplace skills of our clients and recognise that a highly skilled and capable workforce is critical to optimal business performance. All of our program participants have the opportunity to develop practical work skills through a practical work placement. They will participate in local work life through an internship with Australian or multinational host companies.

What We Offer Curtin’s Graduates

The PROFESSIONAL YEAR PROGRAM is designed to assist international student graduates (IT, Engineering and Accounting) gain employment in their chosen career; as well as give eligibility for migration points towards permanent residence. It is a 44 week DIAC approved program including a 12 week internship.

NWS also offers a range of INTERNSHIPS for international and domestic students or recent graduates who want to discover something new about themselves and the world of work in Australia. Our program participants spend 8-26 weeks working in their chosen industry alongside Australian professionals in a host organisation. Navitas Workforce Solutions and your host organisation will develop a customised training plan and allocate a mentor so you will get the most out of your internship and professional experience.

The ENGINEERING EXPERIENCE PROGRAM assists Engineering graduates in developing the key skills needed to secure employment and be effective in the workplace. After 4 weeks of work readiness training the program concludes with a 12 week professional internship with participants likely to secure placements with leading WA based organisations.

What We Offer Curtin’s Graduates

What We Look For In Applications
International students/graduates who are interested in gaining work experience and networking with potential employers in Australia.

How To Apply
Please visit our websites to download an application form:
• http://www.professional-year.com
• http://www.professional-internships.com
• http://www.engineering-experience-australia.com

If you are eligible we will request further documents and an interview will be conducted by a Navitas Placement Coordinator to determine your suitability for an internship or the Navitas Professional Year Program.

NEXT STEP Mentoring Program

Recruits: All Disciplines
Professional Membership

Australian Permanent Residents
International Students

Which Degrees Do We Offer?
• Centre for Aboriginal Studies
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
The NEXT STEP Mentoring Program matches senior (final and penultimate) year students to Curtin Alumni with the same or similar degree. Students meet their mentor approximately 4-6 times over 6 months.

What We Offer Curtin’s Students/Graduates?
By speaking to an industry professional before graduation, students can:
• develop a greater understanding of what is expected of them when they graduate;
• gain more knowledge about employers in their field; and
• feel more confident about the job application process.

What We Seek In Curtin’s Students/Graduates?
We are seeking motivated students who are keen to learn more about graduate employment in their field. Students need to commit to a minimum of 8 hours over 6 months to complete the program.

How To Apply
The program runs from April until October each year. Students can apply (online) at the beginning of the academic year. Students answer a few questions to complete the application process. Students are matched if there is a mentor available from a relevant discipline or industry.

Newmont Asia Pacific

http://www.newmont.com/join-our-team/students

Australian Permanent Residents

Which Degrees Do We Recruit?

Centre for Aboriginal Studies
• Bachelor of Applied Science (Indigenous Community Management and Development)

Science and Engineering
• Chemical Engineering
• Computer Science
• Electrical Engineering
• Engineering Management
• Geographic and Geospatial Information Science/Geology/Geophysics
• Mechanical Engineering
• Metallurgy
• Mining/Mining Geomechanics
• Sustainability Management

Description
Newmont Mining Corporation is proud of the reputation we've built as one of the world's leading mining companies, but we're never content with the last great find. That's why we work harder, search farther and dig deeper - for natural resources - whether those happen to be minerals or talent.

What We Offer Curtin's Graduates

EMERGING TALENT GRADUATE PROGRAM:

Key Features:
• Competitive annual salary review and bonus payments; and
• Enjoy full private medical benefits.

UNDERGRADUATE (VACATION) PROGRAM:

Key Features:
• Maximum 12 weeks' work experience at our Australian/New Zealand Operations;
• Site and community relations induction;
• Possibility of project work;
• Hands-on work experience;
• Competitive salary;
• Entry point to Newmont Asia Pacific's Emerging Talent (Graduate) Program.

What We Look For In Applications

Newmont seeks graduates with:
• strong teamwork, initiative and communication skills;
• a track record and desire to work in remote locations.

If you have the qualities that Newmont is looking for, are mobile, and keen to pursue the opportunities that one of the world's largest gold mining companies can provide, we look forward to receiving an on-line application from you.

How To Apply

On-line GRADUATE applications will be accepted from 1 March to 31 May 2012. Applicants who are short-listed will be invited to take part in a face-to-face interview during July-August 2012.

On-line UNDERGRADUATE (vacation) applications will be accepted from 1 June to 31 August 2012. Applicants who are short-listed will be invited to take part in a face-to-face interview during September-October 2012.

## Which Degrees Do We Recruit?

**Curtin Business School**
- Accounting
- Information Systems / Technology

**Science and Engineering**
- Architecture / Planning / Built Environment
- Computing / Information Technology (IT)
- Engineering
- Environment / Sustainability

## Description

WA's public transport system is recognised as the best in Australia and one of the best in the world. The Public Transport Authority (PTA) provides the infrastructure and systems to deliver the state's integrated bus, train and ferry services and aims to make public transport an attractive and sustainable choice for connecting people and places.

## What We Offer Curtin’s Graduates

As a PTA graduate, you will gain broad experience through a series of rotations across our business. The rotations provide an opportunity to build a wide range of professional competencies with an emphasis on your chosen discipline.

As a graduate, you will be working with leading-edge technology and modern systems in a safe, equitable and diverse environment. A structured learning program exists for first year graduates to equip them with a wide-based of skills. For second and third year graduates, specialised training is provided to fast-track their careers.

We offer challenging work in a supportive mentored environment with excellent training and development opportunities. Take advantage of the competitive salary and benefits package in friendly lifestyle Perth. Some other benefits of working for the PTA include corporate apparel, access to free gymnasium, access to health and fitness/lifestyle programs and free public transport.

As part of the PTA's program, a dedicated graduate coordinator is provided to support graduates establish themselves in their chosen career and to offer professional development opportunities.

## What We Look For In Applications

We are looking for motivated, enthusiastic and innovative graduates who also have an interest in contributing towards their community and working on major infrastructure projects. Applicants should have sound academic results and a willing to work within a team environment.

## How To Apply

For application details go to: [http://www.pta.wa.gov.au](http://www.pta.wa.gov.au)

Applicants must submit a statement of their academic results, a current resume and a cover letter that details why they would like to become a graduate engineer in the transport industry.

Programs & deadlines:
- Graduate – advertising in early 2012
- Vacation Work – advertising in mid 2012

See the PTA website for application exact deadlines.

PwC

http://www.pwc.com.au/careers

Recruits: Curtin Business School
Graduates, Vacation Work, Work Experience
Australian Permanent Residents
International Students (Graduates Only)

Which Degrees Do We Recruit?
Curtin Business School
• Accounting
• Business Law / Legal Studies
• Economics / Finance
• Information Systems / Technology
• International Business
• Taxation

Description
As the world grows in complexity, our people and clients are being asked to respond more quickly, learn new skills, use faster and better technology and interact effectively with a range of diverse cultures - all while balancing busier personal and community-focused lives. As a result, people are looking for deeper and more meaningful connections with their business advisers, employers and colleagues.

PwC provides industry-focused assurance, tax, advisory and private client services to build public trust and enhance value for our clients and their stakeholders. More than 163,000 people in 151 countries across our network share their thinking, innovation, experience and solutions to develop fresh perspectives and practical advice.

The diversity of our clients’ needs provides opportunities to work on projects that are challenging and exciting. You can expect to work with some of the FTSE 100 and Fortune 500 and top ASX listed companies, and many of the top ASX listed companies.

What We Offer Curtin’s Graduates
At PwC, you will have the opportunity to develop relationships with clients from the FTSE 100, Fortune 500 and top ASX listed companies, as well as state and Federal government clients and private entrepreneurs, across many different industries.

Our clients’ needs across the assurance, tax and advisory spectrum are at the heart of our business. As a member of our team, you will be encouraged to ask questions and have relevant, meaningful conversations with our clients to develop the types of relationships that provide opportunities for mutual growth.

What We Look For In Applications
At PwC, we are committed to achieving a truly diverse and inclusive organisation, reflective of the community in which we live. Therefore we are looking for motivated individuals who would like to broaden their career not only technically but are also looking to build relationships through networking and collaboration in teams, having a commercial focus to help build the business and to take on new opportunities such as working across teams, industry sectors and internal moves.

How To Apply
Please apply online at http://www.pwc.com.au/careers. Our Student Careers website further details our recruitment process. Please note that applications will close on 2nd April 2012.

Contact Details:
Website: http://www.pwc.com.au/careers
Email: perth.campus.recruitment@au.pwc.com
Phone: (08) 9238 3000

PwC is a firm committed to building strong, collaborative relationships and helping our people and clients realise their ambitions. We have a diverse population of positive and energetic people who would like to create a career in a progressive, global network.

Graduate Program
Our Graduate Program is open to students in their final year of university as well as recent university graduates. Once enrolled in this program, the firm will invest up to $25,000 on your development in the first few years. This will include the development of business skills and technical training, professional qualifications, and also mentoring and coaching.

Vacation Program
If you are in your second-last year at university and looking to gain some valuable work experience, our Vacation Program is designed for you. This program offers ‘real life’ work experience, allowing you to see first-hand what it’s like to work at a professional services firm before graduating. The program also offers you the opportunity to secure a place in our Graduate Program before heading into your final year at university.

Which Degrees Do We Recruit?

Science and Engineering
- Engineering
- Chemical Engineering
- Electrical Engineering
- Geology
- Geophysics
- Mechanical Engineering
- Mining
- Petroleum and Petroleum Well Engineering
- Science / Mathematics

Description
QGC is a leading Australian coal seam gas explorer and producer focused on developing its world-class reserves for domestic and international supply. QGC is a BG Group business, a global leader in the energy market with operations in more than 25 countries over five continents.

What We Offer Curtin’s Graduates

It takes excellence
Join a global organisation with a culture committed to safety and ethical practice while working to minimise the effects of our operations on landholders, the environment and communities in which we work.

It takes experience
Be paired with a buddy who is currently on the program who will be able to assist you with any questions you may have about your team, the work, ongoing education, BG Group or your international placement. Enjoy the support of a professional mentor who can offer world-class expert guidance throughout the program and beyond.

It takes agility
You’ll get up to four rotations (including one guaranteed international placement) during the BG Group Graduate Program. Attend Graduate Induction (1st year) and the Graduate Development Week (2nd year) in the UK with graduates from other offices around the globe.

It takes you
We’re looking for people with the right stuff to join us in the following disciplines:
- Engineering
- Operations
- Well Engineering
- Petroleum Engineering
- Geology
- Commercial
- Contracts & Procurement

What We Look For In Applications

We are seeking graduates who want hands-on experience, access to world-class projects and who share our values of respect, enthusiasm, safety, performance, excellence, courage and team work. Ideally we would like to see what extra curricular activities the students have been involved in and any relevant industry experience they have gained whilst studying.

How To Apply

Generally the recruitment process we follow starts with online testing followed by a telephone interview, a face-to-face interview, group assessment centres around May 2012 then background checks. Offers will be made around June 2012.

QGC is a rapidly growing explorer and producer of natural gas – a more environmentally friendly hydrocarbon. We employ more than 3,000 people and supply 20 per cent of Queensland’s natural gas. We’re also developing one of Australia’s biggest capital infrastructure projects, the $15 billion Queensland Curtis LNG, to export liquefied natural gas. From 2014 this project will produce more energy than Australia’s entire residential demand.

QGC is owned by BG Group, a global leader in the energy market with operations in more than 25 countries over five continents.

BG Group’s International Graduate Development Program is designed to give you early responsibility and offer you international opportunities sooner rather than later. Our 2 year and 7 month program offers you 3 or 4 rotations, guaranteeing you at least one international placement. With an emphasis on hands-on teamwork you will not only learn from world-class leaders but work alongside them while you gain invaluable exposure to our operations. Along with being partnered with a buddy and professional mentor your development whilst on the program takes you out of your home base in QGC to attend training and development activities in BG Group’s UK head office.

QGC’s Summer Vacation Program offers a 12 week paid placement in either Brisbane or Chinchilla and is targeted at students in their penultimate year. Along with a real-world scope of work or project to complete the program offers development lunches and a 2 day field trip.
QR National

Recruits: Business, Science and Engineering Graduates
Australian Permanent Residents

Which Degrees Do We Recruit?

Curtin Business School
• Accounting
• Economics / Finance
• Human Resource Management / Industrial Relations
• Information Systems / Technology
• Logistics / Strategic Procurement / Supply Chain

Health Science
• Health and Safety

Science and Engineering
• Civil Engineering
• Electrical Engineering
• Mechanical Engineering

Description
QR National is the largest rail freight haulage operator in Australia by tonnes hauled, operating in key freight sectors and supply chains across the country.

We are focused primarily on large, heavy haul rail tasks such as the transportation of coal, iron ore, other minerals, agricultural products and general freight as well as containerised freight.

What We Offer Curtin’s Graduates

Attend our “Grad Trek” across QR Nationals operations.

Be matched with a senior management mentor to support you in planning your career

Network with managers at our ‘Working Lunch Series’ discussing key business topics.

Work on a Graduate Project to propose new innovative solutions for QR National’s future.

Be a part of our Graduate Executive Program that represents, develops and improves Graduate cohort opportunities

What We Look For In Applications

We look at more than just your grades. We look for graduates with leadership potential, who live an engaged and passionate life in and out of study, who bring self-assured communication skills with their peers and managers and who are driven to develop their careers and help us move a nation.

How To Apply

Graduate positions are advertised on our website from February to April with the recruitment and selection process commencing in April.

The recruitment process involves telephone interview, psychometric testing, panel interview and reference checks. Job offers are anticipated to made by July/August with successful candidates commencing in August or January the following year.

Job alerts are a great way to find out about new positions that suits your skills, experience and areas of interest. Simply sign up at qrnational.com.au/careers and we’ll email you whenever something potentially suitable comes up.

*All start dates are subject to business requirements

Contact Details:
Website: http://qrnational.com.au/careers
Email: careers@qrnational.com.au
Phone: 1800 000 713

As a QR National Graduate, you will receive unparalleled training and development opportunities through our innovative and award winning programs. You will be matched with a mentor throughout the program and will be provided with genuine career development that includes opportunities for professional memberships (e.g. CPA, CEng) and exposure to diverse career paths.

Rapallo
http://www.rapallo.com.au

Recruits: Science and Engineering
Graduates/Professional Membership
Australian Permanent Residents

Which Degrees Do We Recruit?

Science and Engineering
- Engineering
- Environment / Sustainability
- Mining / Mapping / Resources
- Electrical Engineering
- Engineering Management
- Mechanical Engineering
- Mining

Description

Rapallo was established in 1987 in Kalgoorlie, Western Australia. Since then, Rapallo has grown into a leading mid-tier engineering group adding value at all stages of our client’s project cycle. Rapallo offers services that encompass all engineering disciplines, project construction management, asset and resource management, and environmental consultation and management. With more than 50 staff, drawn locally, interstate and overseas, Rapallo’s sustained growth is the result of an unswerving commitment to helping clients meet diverse challenges. Rapallo is privately owned and run by a senior management team with a vast combined experience in the industries it services.

What We Offer Curtin’s Graduates

Graduates are surrounded by experienced and committed mentors and are provided access to our graduate development program. To be considered for a graduate position to start February 2011, you will be in the process of completing, or have completed your professional engineering qualification. The company environment and work requirements will suit Graduates who display humility, have good communication skills and are team players. Previous work experience in either engineering or the mining industry will be held in high regard.

What We Look For In Applications

The willingness to learn and be a team player.

How To Apply

If you are still reading this, there are opportunities available! Find the Graduate Program that you are looking for at Rapallo.

Applications are ONLY to be made via our Careers link – http://www.rapallo.com.au/join.html. Apply direct to our Graduate Advertisement with your resume (Microsoft Word), a brief cover page detailing what you are looking for in a Graduate Program and transcripts of your academic results.

Applications close 31st of July, whereby you will be contacted on the progression of your application.

Which Degrees Do We Recruit?

Science and Engineering
- Chemistry
- Computing / Information Technology (IT)
- Economics / Finance
- Engineering
- Environment / Sustainability
- Electrical Engineering
- Geology
- Geophysics
- Mechanical Engineering
- Metallurgy
- Mining / Mapping / Resources

Description

We are one of the world’s largest resource companies and a leader in finding, mining and processing minerals.

What We Offer Curtin’s Graduates

You’ve worked hard to get your degree. Now you want to get your career on track. We understand your need to succeed, and to help you achieve this we offer a two-year structured Graduate Development Programme, which will grow and strengthen your technical and commercial skills. And because you’ll be part of one of the world’s largest mining and metals companies, there’s tremendous scope to move around and explore new areas and options.

Right from the start, we’ll give you real work, and treat you like the professional you are. You’ll be given a development plan, technical training, and on and off-the-job development. You’ll learn from experienced peers, and enjoy exposure to tremendous opportunities and global expertise. In your second year, you’ll also be given an experienced mentor who will help you to reach your true potential.

On top of all this, you’ll receive continuous coaching and development, be paid to up-skill, and be part of extended training opportunities that will enable you to build networks and share experiences that impact and enhance your entire career.

What We Look For In Applications

If you have a sense of adventure, Rio Tinto is the place to explore it. Our people have vision, just like you, and want to develop both personally and professionally. Add discipline, persistence, flexibility, drive and sensitivity to community needs, and you’ll go far.

How To Apply

Application dates: 20 February 2012 – 30 April 2012.

Applying online will take around 30 minutes.

You’ll need to answer some preliminary questions and upload your academic transcript and CV. Please make sure you give us a valid email address that you check regularly.

The link to apply can be found on the Rio Tinto Careers page.

Contact Details:
Website: http://www.riotinto.com/
Email: graduate.careers@riotinto.com
Phone: 08 9460 4300
Want your life to rock?

Then Rio Tinto wants to hear from you.

This is a great opportunity to expand your knowledge and horizons by joining our Graduate Development Programme.
You'll be developing your leadership and professional skills with a true global leader.
This is real work with real support, real rewards and real future career development opportunities.

Or, as one of our recent graduates puts it:
“Rio Tinto’s great. Everyone’s here with the same aim. We’re all really passionate about our work. We’re all focused on getting ahead in life. With everyone wanting to reach for bigger and better opportunities the working environment is inspiring, but very friendly.”
(Leticia Bean, Graduate Business Analyst)

In 2012 we’re looking for outstanding candidates across a wide range of disciplines:
- Anthropology / Archaeology
- Business
- Commerce / Accounting
- Economics/Finance
- Community Relations/Communications
- International/External Relations
- Engineering – All Types
- Environmental Science
- Geology
- Geoscience
- Human Resources
- Hydrology
- Information Technology
- Metallurgy
- OH&S
- Surveying.

“Take it from me, Rio Tinto’s great.
Everyone’s here with the same aim. We’re all really passionate about our work. We’re all focused on getting ahead in life.

With everyone wanting to reach for bigger and better opportunities – the working environment is inspiring, but very friendly.”

**Sedgman Limited**

http://www.sedgman.com/careers/

**Recruits:** Science and Engineering Graduates, Vacation Work, Work Experience

**Which Degrees Do We Recruit?**

Science and Engineering
- Mechanical Engineering (Mechanical and Materials Handling)
- Electrical Engineering (Electrical)
- Process Engineering (Minerals Processing, Chemical and Metallurgical)

**Description**

Sedgman Limited was established in 1979 and over three decades has grown to become a leading provider of mineral processing and associated infrastructure solutions to the global resources industry. With offices in Australia, China, South America and Southern Africa, Sedgman can offer a truly international experience.

With our global locations, interests in Metaliferous mining sectors, and the diversity of the services that Sedgman Perth offer to our clients, the paths your career can take with Sedgman are many and varied. With Sedgman’s Perth Graduate Program, let us take you where you want to go.

**What We Offer Curtin’s Graduates**

At Sedgman, we are committed to supporting our graduates’ development as they take on broad based, challenging and meaningful work over a two (2) year period.

The primary objective of Sedgman’s Perth Graduate Program is to engender and foster superior graduates to become future key players in our business.

On the graduate program, you will be exposed to the multi-faceted nature of the Sedgman business and gain experience across a variety of our office functions along with the potential for site-based exposure.

**What We Look For In Applications**

In order to be eligible to apply for Sedgman’s Graduate Program, you must comply with the following application criteria:

- Graduates must be authorised to live and work in Australia and therefore must currently be in possession of Australian Citizenship or Permanent Residency (including New Zealand Citizens).
- Graduates must be currently residing in Australia and/or willing to travel to Perth in October/November 2012 to participate in the assessment process.
- Graduates must accept that a site-based rotation at our domestic or international projects or operations is potentially a requirement of the program.
- Graduates must have completed, by the end of 2012, all units of study required to be eligible for graduation in a degree and/or major listed above.
- Degrees must be from a recognised tertiary institution and a certified academic transcript (in English) from the university should be supplied with the application.

**How To Apply**

Applications for Sedgman’s 2013 Graduate Program will open in round August 2012. For more information on Sedgman, our programs, key dates, opportunities and eligibility criteria, please visit our website at www.sedgman.com/careers.

Which Degrees Do We Recruit?
Health Sciences
• Chemistry
• Environment / Sustainability
• Occupational Health and Safety

Science and Engineering
• Chemistry
• Chemical Engineering
• Engineering
• Science / Mathematics
• Geology
• Metallurgy
• Mining
• Mining Geomechanics

Description
SGS is the world's leading inspection, verification, testing and certification company.

Recognized as the global benchmark for quality and integrity, we employ more than 70,000 people and operate a network of over 1,350 offices and laboratories around the world.

We are constantly looking beyond customers’ and society’s expectations in order to deliver market leading services wherever they are needed. As the leader in providing specialized business solutions that improve quality, safety and productivity and reduce risk, we help customers navigate an increasingly regulated world. Our independent services add significant value to our customers’ operations and ensure business sustainability.

What We Offer Curtin’s Graduates
SGS offers structured training programs for graduates and vacation students (in particular Chemistry) which will allow students to be exposed to an array of Geochemical testing, FIFO work, commerical laboratories and much more.

A chance to meet with clients, see other laboratories, experience mine and Perth based work.

Furthermore, we have a number of other construction materials testing laboratories, metallurgy and engineering vacancies for students to learn, grow and develop.

What We Look For In Applications
SGS Australia seeks enthusiastic, motivated and committed students who are willing to represent SGS Australia in public, to clients and to future students. Furthermore, you will be expected to adhere to our code of integrity at all times and respect all policies and procedures we hold plus have a great time meeting new people and learning new things.

Shell Australia

Recruits: Business, Health Science, Science and Engineering Graduates, Internships
Australian Permanent Residents

Which Degrees Do We Recruit?
Curtin Business School
• Business or Commerce
• Finance
• Economics
• Supply Chain or Logistics
Health Science
• Environmental Management
• Health and Safety
Science and Engineering
• Chemical Engineering
• Electrical Engineering
• Mechanical Engineering
• Petroleum Engineering
• Environmental Engineering
• Geosciences

Description
Shell is a global group of energy and petrochemical companies. Our aim is to meet the energy needs of society in ways that are economically, socially and environmentally viable – now and in the future. Shell has been operating in Australia for 110 years and currently employs around 2,200 people, with Australia marked as a growth centre for Shell globally.

What We Look For In Applications

Whatever role you play within Shell’s business, there are certain qualities you will need in order to succeed.

First and foremost, you need to enjoy being challenged – because we have a habit of taking on projects that other people think are impossible. As individuals, we all bring a unique set of qualities to the business, but there are certain key attributes we look for in our people. At Shell we use a competency based assessment methodology which focuses on CAR(T): Capacity, Achievement, Relationship

How To Apply
To apply and to find out more information please visit www.shell.com.au/careers.

Please note that applications for graduate opportunities with Shell are open from 20 February to 2 April 2012.

Sinclair Knight Merz
http://www.globalskm.com

Recruits: Science and Engineering
Graduates, Vacation Work, Internships
Australian Permanent Residents

Which Degrees Do We Recruit?
Science and Engineering
• Chemical Engineering
• Electrical Engineering
• Electrical Utility Engineering
• Engineering Management
• Engineering
• Environment / Sustainability
• Geographic and Geospatial Information Science
• Mechanical Engineering
• Mining / Mapping / Resources
• Renewable Energy Electrical Power Systems
• Sustainability Management

Description
At Sinclair Knight Merz (SKM), our goal is to have a positive and enduring impact on the world. We’re a leading projects firm with global capability in strategic consulting, engineering and project delivery, deploying more than 7,000 people across 17 countries. We lead the market across a range of sectors by harnessing the talents and passions of people like you. Here you’ll be encouraged to innovate, offered unique opportunities and supported to achieve your full potential in a flexible environment that embraces your lifestyle.

What We Offer Curtin’s Graduates
From day one of our four year program you’ll be part of our team, and encouraged to contribute your thoughts and ideas in an open, communicative environment. We’ll help you gain industry accreditation, and give you specialised training to help you find your niche. We’ll get you involved with the industry at large, through a range of developmental and social activities which includes our four day graduate conference, where you’ll meet your fellow graduates from our offices around the world.

You’ll have access to a range of employee benefits such as cheaper health insurance and gym memberships. You’ll have plenty of social events both in your team and the whole business. And most of all, you’ll have control of your future, right from the start of your career.

What We Look For In Applications
At SKM we’re looking for like-minded individuals to join our team. People who want to work with, and learn from the best. People who thrive in a team environment. People who aren’t afraid to go out on a limb in the search for new answers. But quite simply, we’re looking for people who care enough about the future to build a better one.

How To Apply
Applications open on March 1st 2012 and close April 29th 2012. To apply online please visit www.domoregofurther.com

State School Teachers’ Union of WA

Recruits: Science and Engineering
Vacation Work, Professional Membership
Australian Permanent Residents

Which Degrees Do We Recruit?
• Centre for Aboriginal Studies
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
The SSTUWA is the registered Industrial Union for all School Administrators, Teachers, TAFE Lecturers, School Psychologists and Swimming Instructors employed by the Department of Education, Western Australia. Since 1898 the SSTUWA has been negotiating with the State Government and Education Department on improving workers rights and conditions, salaries and quality public education; on behalf of all public school educators in WA. Since the 2008 General Agreement, WA teachers are the highest paid educators in Australia. This is a testament to the strength and dedication of the SSTUWA and its members and its commitment to delivering quality public education to WA students.

What We Offer Curtin’s Graduates
As an Education Student you can apply for a FREE student/complimentary membership which will give you access to all the members discounts and services, access to training through our Education and Training Centre, access to our Member Assist Call Centre for advise and information and free and unrestricted use to the Teacher Online Planning System (TOPS)/Curriculum Organiser to help ease the workload associated with curriculum, classroom and school planning for K-12 teachers.

In addition we have the newly formed NEN-New Educator Network which has been organised to support and assist student teachers and new educators (teachers in their 1st five years of teaching) with industrial and professional issues. The NEN provides specific training, PD’s, a collective voice to raise new educator issues/concerns or ideas, a support and social network, Facebook Group - http://www.facebook.com/#!/groups/NewEducatorNetworkWA/, opportunities to attending State and National Conferences, competitions and prizes and much more!

What We Look For In Applications
To be eligible to join as a student or full member, once graduated, you must be working in or looking for work in a WA public school, TAFE or College.

How To Apply
There are several ways you can submit an application for membership. You can download an application form at http://www.sstuwa.org.au/about-sstuwa/membership, call the SSTUWA office on (08) 9210 6000, email inquiries@sstuwa.org.au or speak to directly to an SSTUWA Organiser/Employee.

**Description**

Structerre focus on providing engineering and relatable services across all sectors, particularly the building and construction industry, with a focus on providing innovative, sustainable and efficient designs for all projects. Our diverse range of services ensures we can provide well-balanced solutions and flexible career options.

**What We Offer Curtin’s Graduates**

Our graduate program focuses on establishing engineering foundations, through exposure to our diverse range of engineering disciplines. You will also develop your safety awareness skills, business perspective, time management and communication skills. As a part of the program, you will receive mentoring from professional engineers as well as support and direction to assist you in achieving Charted Engineering status through Engineers Australia.

**What We Look For In Applications**

We are looking for motivated young engineers who enjoy tackling challenges head on. We look for people who are good communicators and have an interest in the building and construction industry. We look for team players who are also happy working individually. We are always looking to support those people who are keen to develop their skills and grow with the business by displaying initiative and leadership skills.

**Description**

We are a seabed-to-surface engineering, construction and services contractor to the offshore energy industry worldwide. We concentrate on services that add value for our clients throughout the lifecycle of their offshore energy fields. We aim to deliver projects on time, within budget and to the highest quality standards, whilst making safety and security an absolute priority.

We aim to be a trusted partner for our clients, recognised and respected for our capabilities.

**What We Look For In Applications**

Subsea 7 competes in a fast changing, growing and technologically advanced market sector. New ideas and fresh thinking from bright, innovative people is the key to our success and we want our graduates, interns and trainees to thrive in this challenging environment. We can provide the opportunity, if you want to make it happen!

**How To Apply**

Applicants will be directed to an online portal at the careers fair where they can apply for open graduate vacancies. We then conduct a series of interviews and presentations given by the potential graduates to help determine who the successful people will be.

Applications open February 24th 2012 and close April 20th 2012.

Teach For Australia
http://www.teachforaustralia.org

Recruits: All Disciplines Graduates

Australian Permanent Residents

Which Degrees Do We Recruit?
• Centre for Aboriginal Studies
• Curtin Business School
• Health Sciences
• Humanities
• Science and Engineering

Description
Teach For Australia is an innovative organisation which engages our nation’s best graduates in addressing one of Australia’s most pressing social issues - educational disadvantage.

Our mission is to confront educational disadvantage by transforming outstanding graduates into exceptional teachers and inspirational leaders. Our vision is of an Australia where all children have excellent education opportunities.

What We Offer Curtin’s Graduates
Teach For Australia seeks outstanding graduates from all disciplines with a will to succeed and a desire to make a difference by confronting educational disadvantage in Australia.

How To Apply
Step 1: Online application
Step 2: Telephone Interview
Step 3: Selection Day

Teach For Australia Selection Day has been designed in a way that allows all candidates to demonstrate their strengths in a professional yet relaxed environment. Over the course of the day, each candidate will complete two behavioural interviews, a group activity, a sample teaching lesson, and a problem solving test. You’ll also have the opportunity to learn more about Teach For Australia and our vision while interacting with a variety of people within our organisation.

- Business Leadership
- Information Systems / Technology
- International Business
- Management

Science and Engineering
- Computer Science
- Computing / Information Technology (IT)
- Engineering
- Engineering Management
- Mathematical Sciences
- Science / Mathematics

Description
ThoughtWorks is a social and commercial community whose purpose is to revolutionize software creation and delivery while advocating for positive social change in the world. Roy Singham, the Chairman, founded ThoughtWorks in 1993 to attract and employ the best knowledge workers - “ThoughtWorkers”- who would share some basic core values: attitude, aptitude, integrity.

Building outstanding business software is primarily a social activity achieved by teams of brilliant people, not a mechanistic process where individuals are interchangeable cogs in some master plan. Hence our hiring model focuses on finding outstanding talent, not the mastery of this or that tool. This principle has proven out a founding idea: that intellectuals can also deliver outstanding business value.

ThoughtWorks has grown from that small group of passionate people in a factory_district office in Chicago to a company of 1500 spread across 20 offices in 10 countries: Australia, United States, UK, Brazil, Canada, Germany, India, China, Singapore and South Africa.

What We Offer Curtin’s Graduates
We approach Graduate recruitment a little differently to most companies. We have up to 5 Graduate intakes in each calendar year starting in January right through to October. We are looking to welcome at least 15 Graduate Developers or Quality Assurance Analysts to our team in 2012 across our Melbourne, Sydney, Brisbane and Perth offices.

Upon joining you’ll attend the Graduate Program at one of the ThoughtWorks Universities in either China or India. Here you’ll embark on a six-week journey, introducing you to life as a ThoughtWorker.

What We Look For In Applications
We are seeking graduates with a real PASSION for learning that are CURIOUS and often CHALLENGE the status quo. Attitude, aptitude and integrity are central to all successful applicants.

How To Apply
Applications are always open at ThoughtWorks. We are currently hiring for the June, August, and October intakes for 2012 across all states. To apply visit us at: http://jobs.thoughtworks.com/applyform?jobId=351&source=CareersFair
Tracey Brunstrom & Hammond Pty Ltd

Western Power

http://www.highlychargedcareers.com.au

Recruits: Science and Engineering Graduates, Vacation Work
Australian Permanent Residents

Which Degrees Do We Recruit?
- Engineering
- Actuarial and Financial Science
- Electrical Engineering
- Electrical Utility Engineering
- Renewable Energy Electrical Power Systems

How To Apply
You will need to apply online. From there, we will be in contact to conduct phone screening and, interview, reference checks, and a pre-employment medical and drug and alcohol screen.

Description
Western Power is responsible for the safe transmission and distribution of electricity in the South West of WA. We connect electricity to homes, businesses and maintain and expand the electricity network.

What We Offer Curtin’s Graduates
You’ll be given the opportunity to work on specific projects relating to electrical engineering and you’ll obtain insight into the work our engineers do on a day-to-day basis. You may be assisting an engineer, form part of a project team or be given your own project to do.

What We Look For In Applications
We’re looking for students/graduates who are studying electrical power engineering. We’ll also consider students who are studying electrical/electronics (including communications, control, and computer systems). You’ll have excellent communication and interpersonal skills, be a strong team player as well as being proactive about managing and driving your own career and development.

- Mechanical Engineering

### Description

WGE is a leading national multi-discipline consulting engineering firm, providing consulting engineering services for building and land development. We are privately owned, where the owners of the company work alongside everyone else. We are non-bureaucratic, foster a flat management structure with a young, enthusiastic, vibrant and professional working environment.

### What We Offer Curtin’s Graduates

As a Graduate at WGE, you will be given plenty of responsibility from day one and have the opportunity to work on a diverse range of exciting projects.

### What We Look For In Applications

We are seeking students/graduates who are enthusiastic, self-motivated and interested in working on a diverse range of exciting projects.

### How To Apply

Please email a copy of your Cover Letter, CV and Academic Transcript to morgan.phillips@wge.com.au.

**Woodside Energy**

### Recruits:
All disciplines
Graduates, Vacation Work, Work Experience
Australian Permanent Residents

### Which Degrees Do We Recruit?

- Curtin Business School
- Health Sciences
- Humanities
- Science and Engineering

### Description

We are Australia’s largest independent dedicated oil and gas company. Throughout Woodside’s 57-year history we have strived for excellence in our safety and environmental performance and we aim to ensure that wherever we operate, the community benefits from our presence. Woodside produces around 700,000 barrels of oil equivalent each day from an extensive portfolio of facilities which we operate on behalf of some of the world’s major oil and gas companies. Our operated facilities include six liquefied natural gas (LNG) trains, four offshore platforms and four oil floating production storage and off-loading (FPSO) vessels. To build them today would cost more than A$70 billion.

### What We Offer Curtin’s Graduates

Woodside offers our graduates the potential to grow in a supportive and caring workplace.

Our values as a company revolve around strong and sustainable performance, care and respect, integrity and trust, initiative and accountability, creativity and enterprise and working together.

Our workplace embraces diversity and places and emphasis on the wellbeing of our people through an unwavering commitment to health and safety.

### What We Look For In Applications

Motivated, talented and energetic students completing their studies during 2012, and graduates with up to two years discipline-related experience.

### How To Apply

Grads:
Monday 30 January 2012 - Tuesday 10 April 2012
