We hope you enjoyed Orientation Week, even if it was a rather wet start. Huge thanks to all our performers and artists, the majority of whom are Curtin students by the way. If you have a talent or are interested in performing on campus, please let us know! Onto more serious stuff...

Have you caught up with your mentor yet? Your mentor is available to provide that insider knowledge to make your transition to uni life easier. After all, they have been there before! Pick their brains for everything from the best coffee locations to which assignments you need to get started early.

Your mentor will contact you via your Curtin student email account, so please keep checking that through OASIS and respond to their message. If you have not heard from your mentor by the end of week 1, please go to our MENTEES page and fill out the form and we’ll find your mentor for you!

Don’t forget to update your contact details on OASIS! It’s always awkward when you have put your mum’s mobile number down on your application form and we call you!
